Bladder Material	Medical Grade Silicone

## Applications

- Dedicated Setups for Mines, Landfill and PFAS Remediation Sites
- Portable Groundwater Sampling
- Low Flow Sampling
- Sub 1-Inch Diameter Well Sampling
- Ideal for bent wells where longer pumps can't fit

Escape the cycle of compromised PFAS Sampling with the Spectra Bladder Pump. Current Sleeve offerings are solely LDPE, HDPE or PTFE, leaving room for contaminants. Spectra utilizes medical-grade silicone, the only material to Non-Detect on all 34 PFAS. The Spectra Bladder Pump stands alone in ensuring no PFAS cross-contamination, created of all stainless steel and silicone with **Zero** LDPE, HDPE or Teflon components.
